FACIALS & SCRUBS

Essential treatments for rejuvenating your skin and promoting a healthy, glowing complexion. Facials deeply cleanse, hydrate, and nourish your skin, addressing concerns like dryness, dullness, or acne. Scrubs, on the other hand, exfoliate the skin by removing dead cells, leaving your skin feeling fresh and smooth.

HYDRA FACIAL

A cutting-edge, non-invasive facial treatment that combines cleansing, exfoliation, extraction, hydration, and antioxidant infusion all in one session. Using a specialized device, it gently removes dead skin cells, unclogs pores, and infuses the skin with nourishing serums tailored to your specific needs. HydraFacials are known for delivering immediate, visible results with no downtime, leaving your skin looking refreshed, smooth, and glowing.

FACIAL ADD ONS

Facial add-ons like extractions, dermaplaning, and red light therapy are the perfect way to enhance your skincare routine and target specific concerns. Extractions help remove clogged pores and blackheads, leaving your skin clear and smooth. Dermaplaning gently exfoliates by removing dead skin cells and peach fuzz, resulting in a radiant, soft complexion. Red light therapy uses soothing light to stimulate collagen production, reduce inflammation, and improve skin tone.

CHEMICAL PEELS

A skincare treatment that involves applying a solution to the skin to exfoliate and remove dead skin cells, revealing a smoother, brighter complexion underneath. The solution typically contains acids like alpha hydroxy acid (AHA) or beta hydroxy acid (BHA) that work to target issues such as acne, fine lines, hyperpigmentation, and uneven skin texture. Chemical peels come in varying strengths—mild, medium, and deep—depending on your skin's needs and desired results.

BROWS & LASHES

Give your brows and lashes the ultimate makeover with our transformative treatments. Regular sessions will leave your brows looking perfectly shaped and defined, while your lashes achieve a stunning lift and volume. These treatments create an effortlessly beautiful look that lasts, saving you time and enhancing your natural features. With consistent care, your brows and lashes will always be on point, effortlessly framing your face and leaving you with a flawless, polished appearance day after day.

WAXING

A popular hair removal method that provides long-lasting smoothness by removing hair from the root. It leaves your skin soft and hair-free for weeks, and with regular sessions, hair growth can become finer and sparser over time. For the best results, it's recommended to wax every 4 to 6 weeks, as this allows the hair to grow to the optimal length for effective removal. Consistency is key to maintaining smooth, flawless skin and minimizing discomfort with each treatment.

BBL / IPL LASER

Broadband Light (BBL) and Intense Pulsed Light (IPL) are advanced light-based treatments designed to improve skin tone, texture, and appearance. BBL uses high-intensity light to target skin concerns like sun damage, redness, and age spots, stimulating collagen production for smoother, more youthful skin. IPL, on the other hand, works by emitting broad-spectrum light to address pigmentation issues, fine lines, and uneven skin tone.

NEUROTOXINS

Injectable treatments that temporarily relax the muscles responsible for causing wrinkles and fine lines. These treatments work by blocking nerve signals, preventing the muscles from contracting, which helps smooth out areas of the face, such as crow's feet, frown lines, and forehead wrinkles. Neurotoxins are a quick and non-invasive way to achieve a more youthful, refreshed appearance with little to no downtime.

DERMAL FILLERS

Injectable treatments designed to restore volume, smooth wrinkles, and enhance facial contours. Made from hyaluronic acid or other biocompatible substances, fillers can be used to target areas such as the cheeks, lips, under-eye area, and jawline. They work by adding volume and plumping the skin, helping to reduce the appearance of fine lines, hollow areas, and sagging. The results are immediate and can last from several months to over a year, depending on the type of filler used.

PEPTIDES

Peptides are specialized amino acid compounds that support the body's natural repair, regeneration, and energy processes. Our injectable peptide treatments go beyond skincare—enhancing cellular energy, promoting tissue repair, reducing inflammation, and supporting overall health—while also improving skin elasticity, smoothing fine lines, and revealing a radiant, youthful complexion.

NAD+ (INJECTON OR NASAL SPRAY)

Reignite your body's natural energy at the cellular level. Supporting healthy aging, enhances overall vitality, and helps your skin and body feel rejuvenated from the inside out.

COPPER PEPTIDE

Powerfully stimulates collagen and elastin production for firmer, smoother skin. It also reduces inflammation and protects against oxidative stress, leaving your complexion stronger, healthier, and radiant.

BPC-157

Supports tissue repair and regeneration while calming irritation and enhancing circulation. This injectable helps promote faster recovery and revitalizes skin for a youthful, resilient appearance.
